

Americas Story 2 (Teacher Guide)

From the birth of the American dream through to the modern era, this series was developed using Charlotte Mason education philosophy to learn through interaction and story elements that connect students emotionally through learning about America and its influence throughout the world. Through this unique educational style, children develop comprehension through oral and written narration, and create memories through notebooking and hands-on crafts. This is not just facts and figures; this is living history. Part 2: Teaches students about the Civil War, the wild West, and the Industrial Revolution. 4th Grade.
