

## St Frideswide: Patron of Oxford

Christ Church Cathedral in Oxford is built on the site of an Anglo-Saxon monastic church founded by a princess named Frideswide. The princess has been honored as the patron saint of Oxford for over a thousand years. This book makes available in English the main accounts of her life. Dr. John Blair, Fellow of the Queens College, Oxford, has translated the medieval lives of St. Frideswide from the Latin. He demonstrates in his introduction that the story, hitherto regarded by historians as a twelfth century invention, probably embodies genuine tradition. The book should have a claim on the affections of all those who love the city, the university and the county of Oxford.
