Never before in the history of humankind have so many people been alive at the same time on earth. Never before in the history of humankind has there been so much knowledge, nor the ability to share this among all of us, through technology that is connecting hundreds of millions of people across the globe. How can all this brainpower, all this knowledge and all this technology be used to help humankind overcome the poverty that persists to prevent far too many of us to fulfill our potential? This book focuses on one surprising factor: a FRANCHISE you can carry in your POCKET!
