

Lifebook! Picks Up Where The Baby Book Leaves Off: A Guidebook for Parents and Guardians

Lifebook! provides parents and guardians with a simple way to capture your children's life events and the activities that were enjoyable and done well. The patterns that emerge from those events will become clues and markers to guide your child's life purpose. Children are often asked, "What do you want to be when you grow up?". When they are younger, the answers may come easy, but when they grow older, the answers can be more difficult to articulate. It's not unusual for a young person to start college with a limited sense of who they are and what their purpose is. Proverbs 22:6 says to "Train up a child in the way he should go and when he is old, he will not depart from it." God has made each child unique, and their skills, personalities, and interests often begin to appear at an early age. Lifebook! is the place to record those stories so we don't forget them as our children grow older. It also includes pages for prayer requests and a place to record their greatest story of all! Lifebook! Picks Up Where The Baby Book Leaves Off.
