

Giving

This seven-chapter treatise on giving touches the heart of money issues. It addresses work, income, budgeting, debt, savings, investments, giving and many more. The critical issues of management and attitude toward material goods are foremost in the book. Gods four basic reasons for giving people money are presented along with four principles for getting out of debt. This book also presents six fundamental biblical principles for staying out of debt. Taxes, tithing, church giving and giving to the poor are all addressed in this book, which is excellent for personal guidance. Its outline format makes it ideal for teaching in a small group or church setting. Pastors will find it to be perfect sermon material. It is straightforward and laced throughout with Scripture references. Monetary success and satisfaction are not as dependent upon how much money one makes or has as they are upon money management and ones attitude toward material possessions. Gods Word is packed with monetary principles. This short book addresses many of them and provides a clear guide to material success and satisfaction.
