

The God In Real Time: Theology of Empowering Change Illustrated Workbook: The Processes of Change and Personal Growth for a Lifetime (Volume 7)

What is God in Real Time? The God Real Time model is a simple concept from Scriptures dealing with three areas of life. First is the basic 4 step model from Jesus and Peter on change, personal growth, and life transition based upon Matthew 11:28 and 2 Peter 1:3-11. Second area of focus for God in Real Time is Relationship building with the emphasis on authentic love. The Third area addressed is spiritual growth, development, and Identity. To truly know who you are is to walk in maturity in a dynamic interpersonal relationship with God the Father, Jesus the Son, and the Holy Spirit. In our identity we find both liberation and empowerment to become everything we were created to become.
