

THE Shadow Side of Community and the Growth of the Self

To write this history of the imagination, Le Goff has recreated the mental structures of medieval men and women by analyzing the images of man as microcosm and the Church as mystical body; the symbols of power such as flags and oriflammes; and the contradictory world of dreams, marvels, devils, and wild forests. Le Goff is one of the most distinguished of the French medieval historians of his generation . . . he has exercised immense influence. Maurice Keen, *New York Review of Books* The whole book turns on a fascinating blend of the brutally materialistic and the generously imaginative. Tom Shippey, *London Review of Books* The richness, imaginativeness and sheer learning of Le Goff's work . . . demand to be experienced. M. T. Clanchy, *Times Literary Supplement*
